

# Recruiter Academy Program Events Model ReadMe

This document introduces new recruiters to the Event Model Recruiting process used at Amazon.

Prior to or ASAP after taking this course, student should complete their Bookmark this Material and Start Here documentation to set up their systems, take any initial training, and be ready to get started on the recruiting processes designed to make them successful event recruiters.

The following documents are included with this training:

- Recruiter Academy Program Events Model.doc
- Recruiter Academy Program Events Model.pdf

Visio Diagram used in this documentation:

- Event Email Process

See the Visio folder for the source file. This file is used in at least two courses. This one and one other which I will document when I open that course to add notes.
